Replace the beef with Redefine meat

Through New-Meat we are transforming the way we eat meat for a better future. We offer you great meat without having to compromise. This tenderloin steak is 100% plant-based and developed by a team of meat lovers for the mouths of meat lovers, you deserve the same great beef you've come to expect and love, but much more sustainable. For years, Redefine meat has studied the complex structure of meat to understand what drives each sensory process and to ensure that we can provide the same experience as eating animal meat. Let's change the world.

Inspiration Menu

*In this menu I like to be inspired by the season and local & regional availability, but also by unknown influences from further afield. I let my creative brain go wild, in short, an **experimental menu**. The inspiration menu reflects our philosophy on nutrition. By often choosing dishes that do not always focus on fish or meat as the main component. We also like to choose regional products when possible and use fantastic products that might otherwise be thrown away. With innovation and courage you can really make these products speak. Based on this vision, we choose to also serve this menu vegetarian, with more limited use of dairy. During the year we serve crow in our menu based on availability. Ask one of our employees about this.*

If you have any allergies or dietary requirements, please let us know. If you prefer an extra entree, pre-dessert or cheese instead of a dessert, we charge an additional charge of €6.00.

Taste, experience and enjoy!

Herman Cooijmans
